REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the claimed lighter with an outer case, curved hinge lid portion, front and rear pair of lugs, with the feature of a cam on the rear pair of lugs and providing the cam with a cam contact surface having a curved portion extending completely across the cam contact surface, the curved portion of the cam used for sliding over the curved hinge when the lid is opened and closed so that interference between the curved hinge and the cam is reduced is not found in the prior art either singly or in combination. The closest prior art is considered Owen (US 2,803,123) which also disclose a lighter with a leaf spring of undulating shape fastened to the top wall of the casing which is considered patentably distinct from the recited feature found in each of independent claims 1, 6, 7, 8, 11, and 12. Examiner finds no motivation to combine the closest prior art found with other prior art references cited in this action to obviate the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen Gravini whose telephone number is 571 272 4875. The examiner can normally be reached on normal weekday business hours (east coast time).
